*As a testament to the quality of our work, we have reproduced a letter from an expert in the technology of broadcast and closed circuit television, Nigel Lythgoe the creator of TV shows Gladiators, Survivor, Popstars (Nasty Nigel), Pop Idol and American Idol. His knowledge of colour, lighting, contrast, camera angles and fields of view is second to none. Thus his praise is a powerful validation of our expertise.*

Dear Mario,

I felt that I had to write to thank you for an excellent job of work at my home.

The picture quality on my television is probably the best we have ever received on all the analogue terrestrial channels. Plus, the additional benefit of digital satellite pictures in all our rooms has saved a lot of household arguments.

What I am most happy with is the workmanship in installing our security cameras. The lengths that your team went to in order to conceal cabling was tremendous. They are hidden down drainpipes, underground and in guttering. The best compliment I can pay you is to say my wife had no complaints.

Many many thanks to you and your team.

Well done.

Best wishes

**NIGEL LYTHGOE -**  
Controller of Entertainment & Comedy
